Acknowledgments

This work was supported by National Science Foundation grants DEB-1052160, DEB-1556208 to Anthony R. Ives, and Graduate Research Fellowships DGE-1256259 and DGE-1747503. The Mývatn Research Station directed by Árni Einarsson provided logistical and scientific support. We thank Jill Welter for feedback on the experiments and numerous research interns for for assistance with fieldwork.
